- GCC/GDB
- Valgrind

EXTRACURRICULARS

IUPUI COMPUTER SCIENCE CLUB
VICE PRESIDENT
AUGUST 2015 - PRESENT

TECHPOINT X
INDY XTERN
MAY 2017 - AUG 2017

EXPERIENCE

SOFTWARE ENGINEERING INTERN

FACTSAFE | MAY 2017 - PRESENT

- Developed a React SDK around PactSafe's legal clickwrap agreement API to allow for easy contract acceptance leveraging PactSafe's platform into customer's existing React websites
- Improved application flow of PactSafe's document signing product built on Backbone.js with features such as adding signers to a contract directly within the contract editor, adding fields to a contract, and implementing a contract approval flow
- Internship part of the Indy Xtern program

FULL STACK SOFTWARE ENGINEER

COLES MARKETING | JUNE 2015 - MARCH 2017

- Implemented online logic based patient registration & medical history forms for clients specializing in using Javascript and JQuery and HIPAA compliant secure email API's to report sensitive PHI.
- Designed a PHP backend for form submissions that filled a PDF template with submitted information and sent results via email.
- Developed and managed multiple Wordpress installations, including theme development with a fully functioning online store
- Furthered business productivity by introducing tools such as Slack and introducing agile development with Trello

CS240 TEACHING ASSISTANT

IUPUI | DEC 2016 - MAY 2017

- Lead a bi-weekly recitation teaching key object-oriented programming concepts using Java, C++, and C for over 60 students.
- Responsible for grading 35+ student assignments and providing constructive criticism & feedback weekly.
